Correction

I have been contacted by Keyvan Bahadori of UCLA, who was having difficulties with Equation (38) of [1]. After checking the equation against my notes, I found that there were in fact several typographical errors in the equation. Equation (38) should have read

$$C_{sr}\left|\begin{array}{l} x_{C_{sr}} = \dfrac{\|F_0P_1\|\sin(\alpha+\sigma\theta_e)+\|F_0P_2\|\sin(\alpha-\sigma\theta_e)}{2} \\ y_{C_{sr}} = 0 \\ z_{C_{sr}} = a\sqrt{1+\dfrac{x_{C_{sr}}^2}{f^2-a^2}}-f \end{array}\right. \quad (38)$$

Many thanks to Keyvan for pointing out the problem.

Ideas for Antenna Designer's Notebook

Ideas are needed for future issues of the Antenna Designer's Notebook. Please send your suggestions to Tom Milligan and they will be considered for publication as quickly as possible. Topics can include antenna design tips, equations, nomographs, or shortcuts, as well as ideas to improve or facilitate measurements.

Got RF Skills?

The hallmarks of working at ITT Corporation are Real Jobs, Real Responsibilities and Real Challenges...right from the start. We offer career opportunities that are demanding and rewarding.

ITT leads an industry team in support of DISA 's Joint Spectrum Center (JSC). The JSC is the center of excellence in assuring the effective and efficient use of the RF spectrum for the Defense community. ITT is growing at the JSC, and we have outstanding opportunities for talented engineers.

***Immediate openings for** RF Engineers, Communication Systems Engineers, Spectrum Management Engineers, Software Engineers.*

ITT is a unique company, providing the ideal workplace environment in which to create a rewarding career. We are looking for team players with the talent and drive for excellence. We strive to create value for our employees by providing challenging workplace assignments. And as we look to the years ahead, that will be our commitment to you.

Getting the *Magazine* by Air Freight

Air freight delivery of the *IEEE Antennas and Propagation Magazine* is available to subscribers in IEEE Regions 8-10. The cost is currently $44.00 per year. This can be added to a member's subscription (and the current cost verified) via the Web at http://services1.ieee.org/membersvc/addservices/intro.htm.
